

AAC LX DETAILS AND LIGHTING SPECS.

The Abbotsford Arts Centre has an extensive house lighting plot including a moving light rig, scrollers, and a generous inventory of gel and a large library of gobos.

The standard house plot may not be changed or refocused without the permission of the Theatre Manager. Additional fixtures are available and may be added as "specials" for the needs of a specific show.

The Abbotsford Arts Centre lighting system handled by our professional staff is able to meet most lighting requirements from basic area lighting to full concert and dance lighting.
